A study conducted by the Godrej Interio Ergonomic Research Cell says that 76% of the working population experiences Musculoskeletal Disorders (MSDs) from working long hours while sitting in a fixed position. As users sit for more than 10–11 hours of a workday, it becomes a major risk factor in office jobs, leading to back injuries. However, adopting ergonomic work postures and following best practices can add to your productivity, mood and overall well-being.

HOW DOES POSTUREPERFECT WORK?

No matter the recline angle or position, PosturePerfect backs your back with the most Advanced Ergonomic technologies. With incredible adjustability, PosturePerfect brings you a plethora of features that will help you align and maintain a correct posture at all times. Let's check them out.
